

# Standard Life Sustainable Focus 1 Pension Fund

This investment has a volatility rating of 3

you are here

## Typically this means:

Higher volatility ratings have greater potential for higher investment returns over the long run. But, higher volatility funds are also more likely to suddenly fall or rise in value. Volatility is just one type of investment risk that you should consider when making investment decisions.

Remember, as with any investment, the value of your fund can go up or down, and may be worth less than you paid in.

## Your risk won't reduce as you near retirement

The level of risk in this investment will stay at risk level 3; meaning you won't reduce your risk as you near retirement.

However, people may want to reassess how much investment risk they're taking, especially as they near retirement. If you'd like to do this, there are other investment options that aim to do that for you. These are known as lifestyle profiles.

## It has a mix of investments

Investments are affected in different ways by different factors. What's positive for one investment can be negative for another, and when one rises, another can fall.

### This fund's diversification rating is 3

Source: Standard Life

The fund's diversification rating is 3, so your investments are quite well spread across a range of investment types and countries.

### Why can diversification be a good thing?

Having a mix of investments across different geographical locations and investment types can help to smooth returns, meaning the value should be less likely to change dramatically than if you were invested in a single location or type of investment.

However, if you're planning to access your pension savings soon, being diversified may not be a good thing, depending on how you plan to take your money.
